2004

Misc Examples & Proj 2

- Instruction Alignment - Example
- Linking in html files – Something extra
- Obstacle Detection Example
- Project 2 Interview Schedule
- Project 2 Marking Scheme
- Project 2 Server Upload Procedure
- Supplementary Paper

Instruction Alignment - Example

There is alignment problem in showing instructions
⇒ E.g. Critter attack in .htm file

Cause:

```
Stage.align="TL"; //alignment = top, left  
Stage.scaleMode="noScale"; //allow for re-size
```

Option 1:

```
//Stage.scaleMode="noScale";
```

Option 2:

```
attachMovie("instructions","instructions",gameover  
Depth,{_x:300,_y:250});
```

Linking html file - extra

```
getURL (url, window, method);
```

```
on (release) {  
    getURL("bottom1.htm", "mainFrame");  
}
```

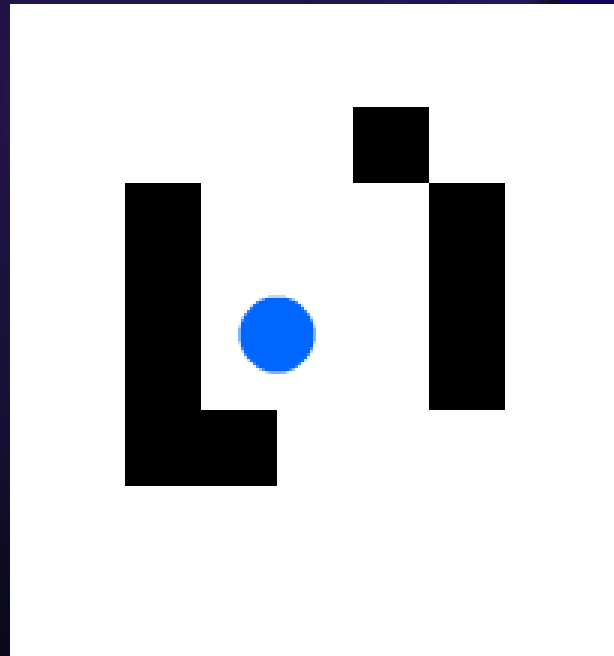

Obstacle Detection, Simple Maze

Maze_simple fla

- calculate the anticipated move

Project 2 Submission

- Project 2 Interview Schedule
- Project 2 Marking Scheme
- Project 2 Server Upload Procedure

- Upload to server before interview
- No lecture / lab / tutorial next week
- Only project interview next week

Supplementary Paper

Most of you should do well in this subject.

If you fail this subject, look out for Diploma Noticeboard after the release of main exam results. (for date, time and venue of sup-paper)
It is BEFORE the exam supplementaries.

The supplementary paper is in the form of ...

A practical test of around 3 to 4 hours.

We will give you a short game scenario, you are to produce the code in ActionScript.

You are only allowed to bring in hardcopy subject notes and 1 extra book.

Conclusion

End of the subject
